THE PROBLEM

The Broken Economics of Traditional African Schooling

1. Crushing Tuition Costs Middle-class Kenyan parents spend KES 100,000 – KES 300,000/year per child on private school fees. Quality education is becoming unaffordable.	2. Overcrowded Classrooms Public and budget schools suffer from 1:45+ teacher-student ratios , leaving struggling learners behind with zero personalized instruction.	3. CBC Curriculum Friction The new Competency-Based Curriculum (CBC) demands heavy hands-on parental facilitation, leaving busy parents stressed and confused.

The Core Insight: The future of African education is not building more expensive school buildings, but empowering living rooms and neighborhood estate pods with turnkey technology.

THE SOLUTION

SomaHome: World-Class Education for 90% Less

■ Turnkey 3h/Day Daily OS	■ Hands-On Kitchen Lab Kits	■■ Voice AI & E-Reader	■ KNEC CBA Transcripts
Structured timeblocks with step-by-step zero-prep parent/tutor scripts. Complete a full school day before lunch.	Inquiry-based experiments using everyday Kenyan items (jiko charcoal water filters, balcony vegetable farming).	Dual-language (English & Kiswahili) speech narration for phonics, storytelling, and early childhood literacy.	Automated formative evaluation rubrics (EE, ME, AE, BE) with official cryptographic teacher verification stamps.

Cost Comparison: Elite Private School: KES 80,000/term vs SomaHome Full Turnkey System: KES 4,500/term (94% Savings)

Capturing Africa's Rapidly Growing Alternative Schooling Market

TOTAL ADDRESSABLE MARKET (TAM)	SERVICEABLE ADDRESSABLE MARKET (SAM)	SERVICEABLE OBTAINABLE MARKET (SOM)
\$45 Billion	\$1.2 Billion	\$25 Million ARR
300 Million school-going children across Sub-Saharan Africa seeking quality foundational education.	2.5 Million urban middle-class households in Kenya, Uganda, Ghana & Nigeria seeking flexible alternatives to expensive private schools.	50,000 Homeschoolers, hybrid learners, and estate micro-school pods across Nairobi, Mombasa, Kisumu, and Eldoret within 4 years.

Market Driver: School fees in Kenya increase by 12–15% annually, forcing thousands of middle-class families into home education and estate learning pods.

Predictable Subscription & Micro-School Marketplace Revenue

1. Digital Term Pass KES 4,500 / Term (~\$35 / Term per family) Full access to Daily OS, all 5 curricula, Voice AI, printable worksheet packs, and automated CBA report cards.	2. Turnkey Boxed Kit Delivery KES 6,500 / Term (Physical Kit Delivery) Quarterly physical delivery containing curated science lab supplies, math manipulatives, craft paper, and storybooks.	3. Estate Pod & Tutor Marketplace 15% Commission (Tutor Booking & Co-ops) Vetted TSC-registered private tutors booked by estate pods (4–6 children) for shared physical lessons.

Unit Economics: Customer Acquisition Cost (CAC): ~\$18 • Lifetime Value (LTV): ~\$420 • LTV/CAC Ratio: 23x

Estate-Centric Viral Growth & Community Flywheel

1. Neighborhood Pod Clustering Direct launch in high-density residential gated communities in Nairobi: Syokimau, Kilimani, Karen, Runda, Kileleshwa , and Mombasa Nyali.	2. Viral Sunday WhatsApp Loop Every Sunday, parents share the 1-click formatted materials & theme sheet into estate resident WhatsApp groups, driving organic referral signups.	3. Co-Op & Church Partnerships Partnering with homeschooling co-operatives and family church networks across Kenya seeking accredited CBC and Cambridge curriculum support.
---	---	---

Target Metric: Acquire 200 paying pilot families in Nairobi within the first 90 days post-launch.
